

Physics of the Human Body, 2nd Edition Errata
By Irving P. Herman

October 8, 2025

Physics of the Human Body (Springer, Berlin-Heidelberg-New York, 2016)

Errata and Clarifications for the Second Edition

1. Chapter 3, pages 196 and 197: The mass of the ball should appear just before g in Eqs. 3.135 and 3.137.
2. Chapter 3, page 198: It should read "with a takeoff angle of 45 degrees in vacuum" (not air).
2. Chapter 3, page 226, Problem 3.103: The given drag coefficient is for the base case (b)(i).
